PREDICTED COST SAVINGS

\$8,900+ p/a

Based in Hoppers Crossing, Victoria, this Carpet Call's local location and showroom decided it was time to upgrade the lighting throughout.

With a showroom that relies on high quality and efficient lighting for their customers, Carpet Call required reliable, top-performing LEDs. Energy Makeovers stepped up and upgraded Carpet Call's inefficient lighting from fluorescent tubes, energy hungry highbays and halogen downlights that were hot-hot-hot, to LEDs throughout.

We upgraded 231 old lights to LED, saving the local business thousands of dollars, while utilising subsidies through the VEU Program.

CHALLENGE & SOLUTION

Carpet Call, Hoppers Crossing now have a lighting system that will last for decades to come and an improved experience for their customers.

By upgrading to LEDs this branch has not only reduced its carbon emissions but it's decreased its energy needs by 73%, their maintenance costs by over \$2,000 a year and have created savings of \$34,000 over 5 years!
