Foodbank Victoria is an independent not-for-profit organisation that sources and distributes food to 134,000 Victorians who rely on their assistance – including 38,000 children.

AREAS UPDATED
**STORAGE +
WAREHOUSE**

With increasing demand on their services, reducing operating costs is absolutely vital to continue their service for another 80 years.

REDUCED CARBON EMISSIONS

271 TONNES p/a

Energy Makeovers was engaged to upgrade 409 x 1200mm & 600mm fluorescent tubes and 124 high bays in the Foodbank Warehouse.

This energy efficiency upgrade will result in a saving of almost half a million dollars over 10 years.

KWH SAVED PER YEAR

247,500 KWH

CHALLENGE & SOLUTION

I've seen the light! Our business is saving well over \$40,000 a year and has significantly reduced our energy wastage thanks to Energy Makeovers.

I shopped around but when Energy Makeovers came out for a site inspection, they had the better service, more choice and greater quality.

The estimated annual savings were going to be about \$39,586 but we've just had a 400% increase in energy costs so the savings are about 4 times that now."

Chris Scott, Operations Manager, Foodbank Victoria, Yarraville
