5KW

SUMMARY

The Newsomes based in Epping, Victoria wanted to take control of their ever-increasing energy costs by producing some of their energy needs in-house.

They selected Energy Makeovers to install a solar energy system on their property in early 2019.

The installation included a **4.8KW solar energy system with a Zeversolar Inverter and 16 Longi LR6-60PE-300M panels**. The installation came with a 12-year installation warranty and included installation by a CEC accredited designer and installer.

CHALLENGE AND SOLUTION

The Newsomes had been thinking about installing a solar energy system for some months and after doing their research on installers, they decided they were ready to go, with Energy Makeovers.

The installation was swift and fuss-free, creating minimal disruption for the family and they've confirmed they're thrilled with the results and really impressed with the service they received from us.
