

Petplan Head Office Tullamarine, Vic

LIGHTING

SUMMARY

NUMBER OF LEDS

462

Petplan is the world's largest pet insurance provider and prides itself on delivering the best value plans, shortest waiting times and first-class customer service.

AREAS UPDATED

Offices

With business overheads increasing, Petplan works hard to keep insurance premiums down for pet lovers and their furry friends.

REDUCED CARBON EMISSIONS

47 Tonnes p/a

Petplan approached Energy Makeovers to replace the energy draining lights at their Head Office in Victoria.

PREDICTED COST SAVINGS

\$12,715 p/a

CHALLENGE & SOLUTION

It was a purrfect decision: Energy Makeovers upgraded over 450 fluorescent tubes and 12 downlights in the Tullamarine office and halved Petplan's lighting bill each year. Even better, the upgrade was totally free, thanks to the Victorian Government's VEEC scheme.

"Thank you, Martin, for the excellent job Energy Makeovers did to convert our office premises to energy efficient lighting. It took only 3 days for the team to change over 400 lights with minimal disruption to our business operations."

David Munday, CFO Petplan
